

Arcadis Germany GmbH

Senior Consultant – ESG & Agricultural Emissions (m/w/d)

Location: Hamburg, Bergedorf / Hybrid | **Deadline:** 15.10.2026 | **Start date:** 01.01.2027

About the Role: We are looking for an environmental expert / agricultural engineer to join our sustainability team in Northern Germany.

Your Tasks:

- Conduct environmental consulting and carbon footprint assessments for livestock housing and bioeconomy systems.
- Evaluate greenhouse gas emissions (CH₄, NH₃, CO₂) and design decarbonization pathways.
- Statistical analysis and reporting using R and Python.
- Direct communication with clients, agricultural enterprises, and regulatory authorities.

Your Profile:

- Degree in Agricultural Engineering, Dairy Science, Environmental Science, or related field (M.Sc. or PhD).
- Practical expertise in livestock emissions, sensor technology, or precision livestock farming (PLF).
- Strong data skills in R, Python, and Excel.
- Fluent German (B2/C1) and English.
